

THE BIG DOGS

Dual pump and hose system.

- Heating Tower
- Highest Melt rate
- Ergonomic Hose Booms
- Choice of the Big Dogs

If you want to crack seal more than 10,000 feet of crack per day, the Crafcoc 1500 is for you. This rugged unit is available in a single hose or the first truly independent twin application system. The twin hose feature uses separate controls, two jacketed pumps, two hoses, two hose booms and two wands all working separately, making this unit the BIG DOG of crack sealing.

For information about the Crafcoc Pavement Preservation Equipment contact Crafcoc or your authorized Crafcoc representative.
