CRAFCO™
AN ERGON COMPANY

SuperSEALCOATER®

Designed for the contractor, the Crafc Super SEALCOATER's standard features are considered options on all other competitive seal coat machines. Quality parts and superior construction make the Super SEALCOATER the machine of choice for everyday rigorous use. Features such as the unbreakable steel tank to the oversize hydraulic system set this unit apart from all the others. Built with Crafc quality and engineered to last, choose the Super SEALCOATER as your next seal coat machine.
